O R D E R

Pursuant to Administrative Regulation 807 KAR 5:056, Section 1(11), the Commission on December 27, 1993, established this proceeding to review and evaluate the operation of the fuel adjustment clause ("FAC") of Kentucky Utilities Company ("KU") for the 6 months ended October 31, 1993.

After holding a hearing, the Commission ordered that this docket remain open until a full and complete review of the evidence and argument presented in a Federal Energy Regulatory Commission proceeding¹ on KU's depreciation practices for certain railcars and its accounting of the proceeds from the lease and subsequent sale of these railcars. On January 2, 1997, the Commission issued an Order in Case No. 92-493² addressing these issues.

¹ Kentucky Utilities Company, FERC Docket No. FA-65-001.

² Case No. 92-493, An Examination by the Public Service Commission of the Application of the Fuel Adjustment Clause of Kentucky Utilities Company from November 1, 1990 to October 31, 1992.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds no evidence of improper calculation or application of KU's FAC charge for the period under review or improper fuel procurement practices.

IT IS THEREFORE ORDERED that the charges and credits billed by KU through its FAC for the period May 1, 1993 to October 31, 1993 are approved.

Done at Frankfort, Kentucky, this 13th day of January, 1997.
